Work Experience

• Dates (from – to)	July 2009-present
	Rome IT
• Name and address of employer	Katalys srl.
	http://www.katalys.it
• Type of business or sector	System Integration, Public Sector
• Occupation or position held	Opensource Software Consultant.

Katalys is a small yet dynamic company that operates mainly in the Public Sector of local administrations , for which it has cosultancies in the following fields

- "Innovation of Public Health Sector": I joined and develop parts of the E-invoice project named "Accordo Pagamenti" (https://www.regione.lazio.it/cpf/faces/public/login/login.xhtml), whose main goal is to receive, collect, and pay electronic invoices from health suppliers of **Regione Lazio**. I currently have Project Mgmt role being responsible of release planning and shaping all functional requirments and third party system integrations .

- "Business Intelligence": we developed a "from-scratch" BI solution

As senior consultant I'm responsible of Rapid Prototyping for Customers' Business Processes, small "Proof Of Concepts" projects based on opensource products, and management of past and legacy software already delivered. I focus on business processes and standard specifications through use of opensource stacks based mainly on (Oracle) JAVA J2EE as: JBoss, Postgres, MySQL. and open standards: **W3C (XHTML, XForms), Web Services Interoperability (WS-I),WS-BPEL and Oasis UBL specs**.

As R&S development I begun in developing with Node JS and Meteor for real time web applications (More on the github).

• Dates (from – to)	September 2008-July 2009
	Amsterdam NL
• Name and address of employer	Sourcesense B.V.
	http://ww.sourcesense.nl
	http://www.sourcesense.com
• Type of business or sector	Opensource Software analyst/developer

• Occupation or position held	For the client Logica Public Sector
